

Ronald McDonald House Charities Northwest Florida

Ronald McDonald House Northwest Florida is like a second home for families. They provide services like breaks and other programs to help families. The group believes the family should only focus on healing their child and should not have to go through it alone. These families come to Pensacola for important medical care for their child. To stay at the house, a medical facility, social worker, or nurse clinician must refer guests. The child receiving medical treatment must also be 21 years old or younger. Please call or visit the [website](#) for more information.
