

Clinical Trials - CNS Healthcare

This group does clinical trials, which are research studies. They check to see if a medical device, treatment, or strategy is safe and works for humans. All study-related medication, care, and procedures are free. Compensation is available. This is based on the length of the study. It also depends on the number of visits and time. Please call or go to the [website](#) to learn more.

Click [HERE](#) for a list of health conditions that may have a clinical trial.
