

Medicine Room - Manatee Co. Health Dept.

The "Medicine Room" at MCHD helps all the clinics by ordering medicine and keeping track of what they have. They make sure clinics always have the medicine they need. They also give out prescription medicines to some clients.

These medicines include ones for the AIDS Drug Assistance Program (ADAP), people with epilepsy, and people with tuberculosis (TB). A pharmacist at the State Central Pharmacy fills these prescriptions and sends them to MCHD in a sealed bag with the client's name on it. The Medicine Room gives the medicine to the clients and answers any questions.

There are two programs that give free medicine for people with epilepsy and people who need insulin. Anyone who qualifies based on income can get these medicines for free.

The role of public health is to promote and protect the health and safety of all Floridians.

This is done by:

- detecting, investigating, and preventing the spread of disease;
- ensuring that health care practitioners meet the requirements for providing adequate care;
- identifying health risks in the community;
- informing the public on health issues;
- maintaining a safe and healthful environment;
- promoting healthy lifestyles;

providing primary care for individuals with limited access to such care from the private sector;
