

HARTPlus ParaTransit Bus

This service lets people with disabilities use the HART fixed route bus system when they otherwise couldn't. The service consists of van transportation, which is based on the individual's needs. It either picks people up and drops them off at their destination or takes them to an accessible bus stop.

The HART bus system is fully accessible by wheelchair or motorized scooter. It should be used whenever feasible. All buses have PA systems to announce stops and lighted stop-requested signs.

Please call or visit the [website](#) for more information.
