

Brehon Family Services - Healthy Families

Healthy Families Gadsden/Leon is a free home visiting program. The program is for parents who are pregnant or parents who have a newborn baby younger than three months.

Healthy Families provides:

- In-home parenting education
- Prenatal information, education, and birth preparation
- Basic infant care education
- Child growth screening and monitoring
- Fun and educational activities for parents and babies
- Well baby care and immunization education
- Family resources and referrals to community services
- Child and home safety education
- Support in family goals

Program services may be provided for up to three to five years, depending on the needs and goals of the family.

Because services are delivered in-home, program staff will work to provide visits at a time that works best for the family. Visits can be provided before or after working hours and on weekends.

Please call or visit the website for more information:
